ABOUT ME:

Aspiring software developer with strong expertise in Python,Django and AWS. I use Python for efficient coding and Django for creating secure, high-performing web applications. As an AWS Certified Developer, I deploy cloud solutions with AWS and Docker. My experience includes solving 30+ coding challenges,Python problem-solving skills and Django knowledge. Combining Python, Django, AWS, and Docker, I am eager to continue growing in the tech industry.

EXPERIENCE

POPOUTBOX PVT LTD | SOFTWARE DEVELOPER INTERN

Jan 2024 - Mar 2024 | Ayanavaram,chennai,Tamilnadu

I have a strong understanding of developing user interfaces with ReactJS, and I leverage Python for creating RESTful APIs using Django (DRF). My expertise extends to data structures and algorithms, and I am skilled in deploying Python applications on AWS EC2 using shell scripts. Django and Python are central to my development process, enhancing my ability to build and deploy scalable solutions.
